

# fringe ottoman

**description**

Fringe is one of abd's original "deconstruction" pieces, with raw fabric edging intended to fray over time to reveal its own distinct beauty. The signs of wear and tear only add to the individual character of each handcrafted piece. A finished upholstered edge is also available.

Five wooden legs and base support a cushion filled with high-quality foam and dacron. Shown here in white oak flatsawn white rubio.

Made to order and handcrafted in Toronto
