rohe lounge chair

description

A companion to the rohe sofa, the rohe lounge chair is all about soft elegance with enveloping armrests and an ultra-deep seat cushion offering a welcoming invitation to settle in and relax. Form-fitting upholstery tailored with concealed stitching along the seams gives the interior its soft definition. With a wooden sleigh base tapered to make room for tucking in feet, this generous seat is slightly elevated to give it a lighter touch where it meets the floor.

Made to order and handcrafted in Toronto
