

rohe sofa

description

Rohe is defined by its soft and inviting contours. In lieu of armrests, a shapely backrest takes the form of a C-shaped embrace, creating a welcome spot for lounging, with a bolster running end to end for added lumbar support.

Abd was inspired to design a sofa that exudes femininity in a way that works in harmony with heavier and more angular furnishings. Rohe's soft silhouette expresses a contemporary take on mid-century modernism.

Made to order and handcrafted in Toronto
